WILL SPEAK AT THE COURTHOUSE

Friday, October 20

10 O'CLOCK, A.M., IN BEHALF OF THE

Seaport Amendment

Mr. Hartwell is well informed on all matters pertaining to the subject, and will be able to answer all questions which will be asked him.

Come! Hear Him!

The "nest egg" left in the hen's nest is an example of the first bank deposit you make. The hen's habit is to accumulate a nest full of eggs and then sit upon them until they hatch. Taking the eggs away as rapidly as she lays them interferes with her plan of procedure, and she will steal away and lay her eggs where they cannot be found.

The first deposit you make in this bank should never be diminished. Like the hen, you should strive to add to that first deposit until you have enough to accomplish some great purpose, and having accomplished that, you begin again.

Three Negroes Killed When Train Hits Car

Montgomery, Oct. 16.—Passengers on Louisville and Nashville train No. 1, southbound Sunday, who included a delegation of Ohio World War Veterans en route to the American Legion convention in New Orleans, and W. L. Mapother, president of the railroad, who was traveling in his private car, were shocked by a ghastly scene near Verbena when the train crashed into an automobile occupied by three negroes, instantly killing all of them and totally demolishing the machine.

Bob Clark and his wife, Marie Clark, of Verbena, and J. S. Addins, a negro preacher living at Clanton, were the negroes who lost their lives in the accident. Earlier in the day the negro whose name was reported as Archie Talbot was found along the tracks not far from the crossing where the three autoists were killed. It was presumed that Talbot was struck by the train on the fast Louisville and Nashville train, on its trip north, according to reports reaching Montgomery.

The crossing where the automobile was struck by southbound passenger train No. 1 is located about a mile north of Verbena station. The terrific crash violently tore the three negroes from their seats, shattered the machine into fragments and scattered the wreckage pell-mell along the track for some distance. According to reports, the automobile was directly on the track when it was hit by the heavy train.

Reports of the accident spread rapidly among the many passengers and a large number of them temporarily abandoned the train to view the gruesome scene. The body of Archie Talbot, the negro woman, was lodged on the front of the engine, passengers who came to Montgomery on the train said. The bodies of the two negro men were thrown clear of the train and were found along the side of the track.

Delay of nearly an hour was caused by the accident. Parts of the demolished auto became jammed about the front of the engine and it was necessary to use strong iron bars to remove them. The three bodies were placed on board the train and removed to Verbena. The body of Addins was later taken to his home at Clanton.

Reports brought to Montgomery were to the effect that an approaching train is in view for some distance from the crossing. It is presumed the engine of the automobile chocked down on the crossing.

300 Pound Black Bear Killed Near Milton, Fla.

We have on display in the Gazette office window the foot of a large black bear that was killed Sunday afternoon near the Jernigan Mill 14 miles from Milton. While the people of that particular neighborhood are not necessarily given to hunting on Sunday, when Bruin challenges them as this one did, he will doubtless find them ready to accept the challenge. It appears that Mr. and Mrs. Brock were out walking Sunday afternoon, when they suddenly came upon this large black bear. In last time that it takes to write it, the alarm was sounded and some dozen men were in pursuit of the visitor.

After a chase of about twenty minutes he came within range, Gasque Jernigan, who killed him with one or more shots. The bear weighed 275 pounds, and is one of the largest that has been killed in this section in several years.—Milton Gazette.

We will exchange a 24lb sack of flour for a bushel of shelled corn. Phone 37.

Mistrial At Greenville In Crenshaw Case

Greenville, Ala., Oct. 14.—The case of the State of Alabama against Jake Crenshaw, negro charged with the killing of Mrs. Foster Gafford, a respected and esteemed citizen, was tried here Saturday morning. The jury, composed of twelve men, was discharged, and the case was set for a new trial.

It was reported that the jury stood ten for a new trial and two for a penitentiary sentence for life.

This is the third time Crenshaw has been tried on the charge of murdering Mrs. Gafford in her home about two years ago on a Sunday afternoon. Both the other juries found the defendant guilty of murder in the first degree and the sentence of death by hanging was imposed by the court. The Supreme Court, on appeals each time granted new trials to the negro.

The jury reported Saturday morning to Judge A. E. Gamble, of the Circuit Court, that there was no hope of an agreement and the twelve jurors were discharged, the court declaring a mistrial and this notation was entered on the docket by the clerk. It was said that the jury continued deadlocked since five o'clock Thursday afternoon and that there was practically no change during all the long waiting and balloting of the jurors.

Baptist Revival Closes; Many New Members

The revival meeting of the Elba Baptist Church came to a close on Sunday night, when forty-two new members were baptized by the pastor.

The revival which lasted for two weeks is said by many to be the most successful in the history of the Church. The sermons of the pastor, Rev. Chas. H. Germon, were greatly enjoyed by the largest congregations who attended every service. Rev. Germon is a forceful speaker and his discourses were timely and well received. Another important feature of the services was the splendid singing of Rev. O. W. Moran, of Troy. He had charge of the song service and showed great ability in leading the choir and congregation in the singing.

It is felt that the entire community as well as the Baptist Church has been greatly benefited by the meeting.

Has Close Call When Bullet Hits Automobile

Troy Messenger says: Former Representative J. A. Carnley, of Coffee County, now Democratic nominee for Probate Judge of that county, had a narrow escape on Monday night, while enroute home in a car from Troy.

Mr. Carnley was in company with Mr. Ammons, of Elba formerly of Troy. When their car had reached a point below Springhill, a pistol shot rang out, and the occupants of the car heard the whizzing of the bullet through the top of the car, buzzed around a little and dropped in front of the car, its force spent.

Mr. Carnley returned to Troy, secured Sheriff Reeves, who went to the scene.

It was the belief of the Sheriff that some one took a shot at the car in indiscriminate firing, not knowing the occupants of the car.

Investigation led to the arrest of Will Goodson, white, case of this movement is on foot by the members of the battery to have individual steel lockers installed in the armory. Regular drills are being held on Tuesday nights of each week, and the officers and members are manifesting considerable interest in the organization.

CROP ROTATION HAS MANY ADVANTAGES.

There are many advantages in a practical rotation of crops. It reduces the fertilizer bill, increases soil fertility, decreases insect and plant disease damage, makes farming more profitable in general. These things have been demonstrated in a rotation conducted over many years on the Experiment

Station here at Auburn. This rotation is cotton, oats, corn. In starting it cotton was planted, followed by fall-sown oats, and in the spring of the second year either cowpeas or velvet beans were planted, following the harvesting of the oats. Crimson clover was planted in the fall of the second year and in the spring of the third year it was turned under and the land planted to corn. Cowpeas were interplanted in the corn, followed by another crop of crimson clover planted in the fall of the third year, thereby working in two crops of summer legumes and two crops of winter legumes in a three-year rotation. This rotation has proven to be very successful. From the standpoint of soil improvement the legumes have been the most important feature. They have practically doubled the yield of both corn and cotton.

With only a slight modification this rotation is practical anywhere in Alabama. In the Tennessee Valley section winter turf oats should be used. Hairy vetch may be substituted anywhere in the state for crimson clover.

SEVERELY BURNED IN AUTOMOBILE ACCIDENT SUNDAY.

Montgomery, Oct. 23.—Mae Newman, 18 years old, 415 Randolph street, was severely burned, her sister, Marie, received minor injuries, and other occupants of an automobile were reported to have been slightly hurt Sunday morning when the machine in which they were riding wrecked on the Hayneville road, eight miles from Montgomery.

Information regarding the mishap was to the effect that the automobile caught on fire and then plunged into a ditch and overturned when the driver lost control of it. The names and addresses of all the occupants could not be ascertained but it was reported that in addition to the two Newman girls, a Miss Benton and three young men were in the car.

Mae Newman was pinned under the wrecked machine and was badly burned about the body before she could be extricated. Her sister, Marie, was slightly bruised, and the driver of the car was said to have sustained minor injuries. Immediately after the accident, the injured were taken to Montgomery by a farmer living near the scene where the mishap occurred. The farmer and several negroes who happened to be in the vicinity rushed to the aid of the party. The members of the party had started to a singing service miles from Montgomery when the accident occurred. None of the occupants received serious injuries, with the exception of Miss Newman, who was burned and bruised in a number of places about her body. The Newman sisters were returned to their home and a physician summoned to attend their injuries. Mae Newman was rendered unconscious for a few minutes, but had regained consciousness before reaching her home.

NEGRO WOMAN IS DEAD; WHITE MAN IS SERIOUSLY INJURED.

Birmingham, Ala., Oct. 22.—Louise Carter, a negro woman, was found dead, and Julius Silverberg, a young white man was found in an unconscious condition in a local alley this morning.

The negro woman's brains had been dashed out by a blow on her head, investigating officers stated, and Silverberg was found near her.

He had been robbed, officers stated. Silverberg tonight was unable to throw any light upon the case, but the coroner's inquest will make an investigation of the affair tomorrow.

Julius Silverberg formerly lived in Montgomery. He is a city commissioner of Talladega and has been in Birmingham several years ago.

West Palm Beach, Fla., Oct. 23.—The heaviest annual rain fall in 84 years and the incomplete stage of the state's reclamation program is responsible for the present flood in the Florida Everglades, according to a statement given The Associated Press tonight by R. C. Elliott, chief drainage engineer of this state.

Mr. Elliott in describing conditions in the Everglades said: "There exists a strip of land around Lake Okechobee some of which is entirely free of water, while other portions in this locality have from one inch to several inches of water on the ground."

"South, southeast and southwest of the lands along the lake," he continued "the glades are covered with water with few exceptions. A notable exception is at Dania and vicinity where the canals and ditches have been cleared to complete the final plans for drainage than anywhere else in the Everglades drainage district. The Miami canal territory is subjected to severe conditions by reason of the large outlying area which has not yet been ditched off from the canal. Okechobee has not been under water."

With two and a half months remaining in the year, the annual rain fall of 54 inches has already been far exceeded, Mr. Elliott said, some stations reporting more than 80 inches of fall.

HELP TALLADEGA GET PURE WATER

The voters of Alabama are called upon to pass upon a very important amendment to the Constitution of the State at the general election Tuesday, November 14, though the amendment is local in its nature, referring to only nine of the small cities and towns of the state.

The Cities' Amendment as it is known, was authorized by the legislature to relieve Talladega of a very critical condition. The water supply of Talladega has been rendered unpalatable and unpotable. The city unanimously voted \$250,000 of bonds to build new water works. Then it was found that the bonds could not be sold, for there was no money to pay interest. Much sickness followed and the State Health Department condemned the water supply.

The facts in the case are set forth in the following appeal made by the City Commissioners of Talladega to the voters of the State:

Statement of Commissioners. Talladega, Ala., Sept. 23, 1922. To the Voters of Alabama: The water supply of the city of Talladega has been unsafe for human consumption for a number of years, except when heavily dosed with chlorine. In addition to this menace to the public health, the supply is entirely inadequate to the needs of the present population. We are ready to pay the cost of a person furnishing for water.

We are asking every voter in Alabama to advocate actively the passage of the amendment to the constitution permitting Talladega to levy an additional five mills tax on the property within the city of Talladega for the purpose of securing a safe and adequate water supply.

When the proposed tax is levied only on property located within the municipality, and costs no nothing except your vote.

W. C. McMillan, R. H. Thornton, MARY JOHNSON, City Commissioners of Talladega.

THREE KILLED IN AUTO ACCIDENT NEAR SYLACAUGA.

Sylacauga, Ala., Oct. 21.—One of the most harrowing accidents in this section for a long time happened Friday, six miles south of here when the large truck of the Arnold Turpentine Co., bound for Sylacauga with Roy Carter, white, driving with forty colored persons aboard, operatives of the Arnold Turpentine Company went over a high embankment with the result of three being dead and nineteen others injured.

Several of them possibly were fatally injured. The dead are Henry Ford, Lula Griffin and Carrie Martin. Roy Carter has broken jaw, cut on

the head and other injuries but when seen at the Sylacauga infirmary was able to give details of the mishap.

He stated that he was driving fairly fast and going round a sharp curve when he saw approaching a buggy and in missing the buggy his truck was thrown outside of the curve and with the top heavy lead the truck, swayed and went over reeling to the foot of the embankment.

Passing cars for the affair were unloaded and the injured were rushed to the Sylacauga infirmary where treatment was given them. Dr. Roscoe Stewart was the first to the scene and rendered first aid to the injured and assisted in bringing in the victims.

The greatest builders in the world are those who build character. Men have built houses, roads and temples that have lasted for generations, empires that lasted for centuries, but those who build character fabricate something that will last to eternity.

Build into your character the foundation of industry, efficiency and economy. With these success is certain. Wholehearted industry brings out the best that is in us and drives out evil.

NEGRO INSTANTLY KILLED WHEN DITCH CAVES IN.

Brewton, Ala., Oct. 22.—One man was killed and another probably fatally injured here shortly before eight o'clock Saturday morning when a cave-in of one side of a twenty-foot ditch in which they were working came with only a moment's warning, entrapped them and buried them under several feet of earth, one of the men being entombed completely and the other being covered with the exception of his head and shoulders.

Several hours of work was necessary to recover the body of the dead man and when this was done it was found that his neck had been broken, his body crushed, and his features distorted almost beyond recognition. The injured man was rescued within a few minutes and he was taken to a local hospital. It is said that he was injured by a falling piece of timber which he was working on when the ditch began to cave in.

The accident occurred in the heart of the business section of Brewton and was witnessed by scores of persons in the downtown district. The men were engaged in making excavations for the laying sanitary sewerage and were working in the deep ditch that had been dug Friday afternoon by a ditching machine. Witnesses state that as the sides of the ditch began to cave in the two men attempted to run but were caught before they could make their escape.

Ordinarily a crew of fifteen or twenty men follow up the ditching machine but fortunately were so engaged and all were killed and John Mallard was injured, the third negro escaping from injury by matter of inches.

HUSBAND IS KILLED BY WIFE'S FRIEND IN PISTOL BATTLE.

New Orleans, La., Oct. 17.—John Murphy, 33 years old, was shot and killed; Tracy Richardson, a friend of the slain man, seriously wounded and under guard at a hospital charged with the killing of Murphy, and the latter's wife suffering from a slight wound as the result of a pistol duel between the two men at the Murphy apartment house.

According to stories told the police by Richardson and Mrs. Murphy the husband returned home while Richardson was in the apartment with Mrs. Murphy. He is said to have opened fire on Richardson wounding him in the shoulder. Richardson returned the fire killing Murphy instantly. Mrs. Murphy was struck by a stray bullet.

Hospital physicians consider Richardson's condition serious. He is an oil salesman and claimed he was a friend of the Murphys.

JEWELRY STORE AT DO THAN ROBBED; LOSS ABOUT \$1,000.00.

Dothan, Ala., Oct. 24.—The place of business of the W. C. Strickland Jewelry Company was broken into and robbed of approximately \$1,000 worth of goods during the early hours of Monday morning. The robber made access through the rear of the building where he pried the bottom bar off a window and entered through the optical room.

DIES WITHOUT KIN, STATE GETS MONEY.

Montgomery, Oct. 23.—For the first time in about six years the state treasury today received a check covering property which had escheated to the state. Jack Murphy died in Jefferson county more than a year ago. Careful search failed to show that he had any living relatives. His property was taken over by the probate court and disposed of. The amount, \$98.68, was paid into the state treasury.

A man named Delaney died in Hale county about eight years ago. No relatives could be found and the proceeds from the sale of his property totaled more than \$8,000. The money was paid into the state treasury. Shortly afterward relatives of Delaney were found in Great Britain. They proved their claim and the legislature in 1917 passed a bill appropriating the money to them.

KU KLUX GIVE OPEN AIR INITIATION.

Troy Messenger says: Perhaps three thousand people visited the Pike County Fair ground on Wednesday night and witnessed the Ku Klux Klansmen there at work in their public initiation service.

The public "stood afar off," or witnessed the initiation from the fair grand stand, while the Klansmen worked in the race track enclosures, several hundred feet away.

The work was put on under glare of a big red cross and by the light from auto headlights. The fair ground was packed with cars as the hour approached perhaps a thousand cars entering the gates while the Klansmen were at work.

White robed figures halted each car, glanced therein, and designated how the cars should proceed. White robed figures also superintended the parking of cars and told the people where to go. White robed figures patrolled the race track to keep all eavedroppers away.

It was rumored that about 250 Klansmen in robes took part in the ceremonial, and that approximately sixty-five candidates were initiated into the order. These figures are not authoritative, but are true as near as the public might judge from the Klansmen assembled in the field in front of the grand stand. Rumor says that most of the candidates were taken into the Troy Klan, while a few others were initiated for visiting Klans.

It was also rumored that the Grand Dragon of the State for the order was present from Birmingham.

The Klansmen worked late in the night and to all appearances the meeting was a big success.

NUMBER 20.

County To Be Organized For Child Welfare Work

Coffee County is to be thoroughly organized for Child's Welfare Work. Announcement to this effect was made last week, following a county-wide meeting at New Brockton when the matter was thoroughly considered.

At the New Brockton meeting the county was divided into four districts or divisions, the principal towns of the county being the centers. Associations are to be organized at Enterprise, Elba, New Brockton and Kingston. Miss Martin, of the State Child Welfare Department was present at the meeting and aided in planning the organization of the county.

The work to be done by the several county organizations is of vital importance, and every citizen of the county should feel a deep interest and lend co-operation. The work will be conducted under direction of the State Department and a representative from the state will visit local associations regularly and assist in any work that may be desired.

Every citizen in the county should enroll as a member of one of the Associations. The membership fee is only \$1.00 per year. Be ready to join when the committee calls on you.

A very interesting meeting was held Monday afternoon at Elba in the Courthouse, when organization of the local Association was completed. Following are the officers and committees named for the Elba Association:

Miss Sydney Rainer, Council.
Miss Gussie Rainer, Chairman.

Mrs. Hendrix Jeter, Sec. & Treas.

Visitation Committee.
Mrs. C. P. Hayes, Chairman.
Mrs. Pete Dorsey, Mrs. Fannie Cunningham, and Mrs. W. O. Vaughn.

Geneva County Man Is Drowned In River

Hartford, Ala., Oct. 30.—Charles Radford, of Black, was accidentally drowned yesterday in crossing Choctawhatchee River about Cerra Gordo, ten or fifteen miles below Geneva, together with his little 10-year-old son.

The prayer meetings, while not as largely attended as they should be are always deeply spiritual and very helpful to all who attend.

The pastor will discuss subjects next Sunday that are of vital importance to all. There is something good in store for all who attend. The special music that is being arranged will appeal to all who hear it. A glad and cordial welcome awaits all who come.

Convict Steals Auto And Flees From Pen

Wetumpka, Ala., Oct. 30.—A convict by the name of Coats made his escape from the state penitentiary here Sunday afternoon about four o'clock. Coats was a "rusty" and is said to be a very fine mechanic. His duties were to see after the trucks and automobiles used at the penitentiary.

He had been repairing the car of T. A. Austin, and when he completed his job he filled the tank, holding about 15 gallons of gasoline, put all the other cars at the pen out of commission got in Mr. Austin's car and rapidly made his escape.

Officers were powerless to follow him at once, but immediately wired ahead to various points. He was seen passing through Goodwater and was fired upon as he passed through Sylacauga but up to noon Monday no news has been received of his capture.

DIG CIN DESTROYED BY FIRE FRIDAY

Troy Messenger says: The Levi Powell ginney, four miles north of Troy on the Ocala road, just over Conecuh river was burned to the ground on Friday afternoon at about 3 o'clock.

The gin had been running during the morning, but the men left work at noon, some of them coming to Troy to the Pike County Fair.

It is thought perhaps that a spark got into some cotton or lint and that the blaze originated from that source.

There was no baled cotton at the ginney at the time, all of it having been taken away when ginned. There were 2 or 3 remnants of unginned cotton, some cotton seed, etc. A seed house nearby was almost filled with seed, and this was burned.

The ginney was a rather large country plant, having about three ginney stands, etc. Mr. Powell carried insurance to the partial value of his plant.
